RILIEVO

GRATIFYING PRIVATE MOMENTS AND HEALING EMOTIONS

The frenetic flow of work and daily life makes the space and time dedicated to oneself especially important. As a result, people are increasingly aware of the quality they expect from the furnishings in their homes and the places they visit. In fact, they search for spaces where experiencing private moments of wellbeing and rebalance.

Gessi has one established tradition of creating bathroom concepts that inspire sensations of purity and wellbeing, visual order and coordination in the space, products conceived to be beneficial to the user's body and mind. Gessi engaged the international architectural Studio HBA (acronym for Hirsh Bedner Associates) to design a collection embodying all the values of simple elegance, clarity and harmony people demand today from a private space.

A CONCEPT OF TIDINESS AND HARMONY

If harmony, based on order, is dictated by a mathematical/ geometric ratio between parts, the maximum expression of purity in a form is – according to HBA's belief - the intersection of a circle into a square.

Rilievo is a bathroom furnishings collection that inspires sensations of purity and wellbeing.
